Are you ready to cut your data entry time in half?

2KMobile Link (Patent Pending) offers real time remote access to your practice management database from any device with Internet access, These devices include cellular phones, pda's, laptop and desktop computers. With 2KMobile Link a user can enter charges up to five times faster with customizable pull down menus and the copy superbill function.

WITH 2KMOBILE LINK YOUR PROVIDERS CAN :

- Create, view, and edit patient information.
- Create, view, edit, copy and print superbills.
- Create, view and edit patient appointments.
- Run the application from any cellular phone with internet access or any device with IE 5.0 or higher.
- Read and write to your practice management database with no delay or hotsync of data.
- View files and reports you post online.
- Customize the display on the superbill screen for a mobile device.
- View patient balances and charges.

WITH THE ADMINISTRATIVE PANEL YOU CAN:

- Offer your clients access to your database with full control.
- Setup user rights and profiles.
- Create Superbill Rules to reduce claim denials.
- Post files and reports online to be accessed from a Web Browser.
- Create pull down menus for faster superbill data entry.
- Enable or disable 2KMobile Link functions.
- Create patient types and categories to simplify patient search.
- Review and edit new mobile entries.
